The Denali Commission Projects utilize Federal funds to administer the Commission's housing programs. These funds will allow AHFC to administer current programs designated for rural areas of Alaska. The Denali Commission's goal is to provide decent, affordable housing for seniors and teachers in rural Alaska. Lack of housing has forced seniors to relocate to other communities where appropriate housing with necessary support is available. Lack of decent rural housing for teachers has been cited by school administrators as one of the factors that contribute to the inability to attract and maintain a stable teaching corps. The United States Congress has responded to this issue by setting aside funding.

Funding History:

This is a new project.

Note: FY2006 was funded with Federal Receipts through a Revised Program Legislation (RPL) in the Federal and Competitive Grants program for \$17,000,000.

Program Description:

Attracting and maintaining a pool of qualified teachers in rural Alaska is a goal of the State of Alaska. In order to achieve this, housing for teachers must be available, affordable and of a quality that encourages these professionals to locate in rural settings. These funds will be also used to support the development of housing for the fastest growing segment of the Alaskan population, persons 55 years of age and older. A statewide needs assessment done in 1996 showed that there was demand for an additional 1,000 units of senior housing. This number is projected to increase by an additional 3,300 by the year 2010.

Elder Supportive Housing Program - Projects will be part of a statewide strategy for elder supportive housing needs. In the spring of 2006, the Alaska Senior Housing Needs Assessment will be completed under this program. Funds will be allocated on a competitive basis. Many elders require medical attention that necessitates them to either live in hub communities so they can be close to hospitals, or to travel out of their home regions to larger, unfamiliar cities. The housing projects planned under this program will allow elders to remain in their home communities and home regions as long as possible by greatly enhancing elder access to necessary medical treatment, monitoring and supervised follow-up. To date, 33 elder housing units and two elder facility renovation/upgrades have been accomplished.

Teacher Housing Program - In accordance with the 2005 Denali Commission Teacher Housing Strategy, AHFC will partner with the Denali Commission to provide newly constructed teacher housing units and repair existing housing stock for teacher housing. The Commission's Teacher Housing strategy places an emphasis on:

- A repair/renovation option to improve existing teacher housing stock (50% Cost Share);
- A priority for new construction in communities prioritized by level of need (Cost share determined by AHFC underwriting process).

Since 2004, the Denali Commission Teacher Housing Program has funded the development of 77 rental units of housing in 24 rural Alaska communities.
